Project Design Phase

Problem – Solution Fit

Team ID	LTVIP2026TMIDS74706
Project Name	Empowering India: Analysing the Evolution of Union Budget Allocations for Sustainable Growth
Maximum Marks	2 Marks

Purpose:

To address the challenge faced by policymakers, analysts, researchers, and citizens in interpreting complex Union Budget data by providing clear, interactive Tableau dashboards that transform raw financial tables into meaningful visual insights for better decision-making and improved transparency.

How it fits:

• **Identifies real problems:**
Large and complex budget documents, scattered financial tables, and difficulty in comparing year-over-year allocations.

• **Uses existing behavior:**
Government departments and analysts already publish and access budget reports but struggle to quickly extract comparative insights.

• **Fits user constraints:**
Easy-to-use interactive dashboards that do not require advanced financial or data science expertise.

• **Leverages trusted channels:**
Official government budget datasets, Tableau dashboards, visual reports, and presentation-ready insights.

• **Helps stakeholders act faster:**
Enables quick identification of funding growth, sector prioritization, and allocation shifts through real-time interactive filtering and visual comparison.

• **Supports transparency and accountability:**
Makes public financial information easier to understand and communicate.

CS CUSTOMER SEGMENT(S) CS

- Government policy analysts
- Ministry and department financial panners
- Economic researchers and academicians
- Public administration students
- Journalists and media analysts
- Citzens interested in public spennding transparency

J&P JOBS-TO-BE-DONE / PROBLEMS J&P

- Understand year-over-year budget allcation changes
- Compare ministry-wise and sheme-wise funding
- Identify miority sectors and growth trends
- Detect major funding increases or reductions
- Present budget insights clearly to stakeholders
- Support data-driven policy discussions

CC AVAILABEE SOLUTIONS AS

- Manual Excel tracking
- Static PDF budget reports
- Traditional tabular comparissons
- Basic charts in spreadsheets

Pros: Easily accessible

Cons: Time-consuming

- Difficulit to compare nule-stunt spearts

Low cost

- Non-interactive
- Difficult to compare multiple years inor quickly

TR TRIGGERS TR

- Annual Union Budget announcement
- Media debates on allocation changes
- Policy evaluation requirements
- Academic research deadlines
- Public demand for financial transparency

EM CUSTOMER CONSTRAINTS RC

- Limited data visualizationskills
- Budget constraints for advanced analytics tools
- Large and complex datasets
- Time pressure for quick reporting
- Difficulty interpreting financial terminology

RC PROBLEM ROOT CAUSE BE

- Manually download et reviewedliged documents
- Compare year-wise allocations using spreadsheets
- Create static reports for presentations.
- Rely on past experience for interpretation
- Spend significant time cleaning and organizing data

EM EMOTIONS: BEFORE / AFTER EM

- **Before**: Overwhelmed by large PDF roots
- Confused by technical financal tabes
- Time-consuming manual comparisons
- Uncertain about funding trends

RC BEHAVIOUR BE

- Manually download and review budget documents
- Time-consuming manual comparisons on,rea·pafts
- Rely on past experience for interpretation
- Spend significant time cleaning making

SL YOUR SOLUTION SL

- Centralizes Union Budget data into a structured format
- Cleans and transforms data for accurate analysis
- Builds interactive Tableau dashboards
- Provides year-wise comparison visualizatons
- Enables filtering by ministry, scheme, and category
